## Summary

I'm a fresh graduate with a bachelor's degree in **Computer Science and Engineering** from **BRAC University** with a strong sense of responsibility, punctuality, and integrity. I bring a strong technical foundation along with effective communication, teamwork, and organizational skills developed through academic, leadership, and volunteer experiences. Currently, I am working and learning **Data Analytics and AI Engineering**, I am focused on strengthening my ability to make data driven decisions and extract meaningful insights. I am eager to apply my analytical thinking, problem-solving abilities, and customer-focused approach in a professional environment that supports efficiency, continuous learning, and growth.

## Experience

**Doin Tech Limited**                                                                                 *Dhaka, Bangladesh*
Executive, Client Experience                                                                          *2025*

*Professional Learning & Achievements – Trade & Investment Company*

- Developed a practical understanding of trading operations, market behavior, and signal execution processes.
- Assisted clients with product setup and explained features, functionalities, and best practices for effective trading.
- Resolved software and application-related issues using remote support and IT troubleshooting skills.
- Coordinated with developers to report, debug, and resolve client-reported technical issues, improving overall client experience.

**15th Convocation of BRAC University**                                                               *Dhaka, Bangladesh*
Volunteer                                                                                             *02/2023 – 03/2023*

- Managed complex IT projects with a focus on timing, functionality, and cost efficiency.
- Actively assisted in managing event logistics, including seating arrangements and coordination.
- Demonstrated strong communication and organizational skills in high-pressure conditions.

**BRAC University Computer Club**                                                                     *Dhaka, Bangladesh*
Former Executive (Finance Department)

- Managed club finances and budgeting for events and coordinated workshops.
- Improved leadership, communication, and teamwork skills through active club participation.

## Research Experience

**CAT-CoT: Instruction-Tuning LLMs via Cognitive Appraisal Theory-Inspired Chain-of-Thought Reasoning to Enhance Emotional Expressivity**                                *(2023 – 2025)*

- Focused on improving large language models' emotional expressivity using cognitive science methods.
- Annotated novel dataset for instruction tuning and conducted extensive literature reviews.

**Academic Project: Disproving MH370 Russian Hijacking**

- 18-page research paper analyzing official investigations, satellite forensics, and media bias.

- Databases utilized: JSTOR, Google Scholar, SKYbrary.

## Projects

**Online Sales Data Preprocessing & Cleaning** GitHub
- Performed **End-to-End Data Preprocessing** and **EDA** using **Python (Pandas, NumPy)**.
- Handled missing values, outliers, and duplicates to ensure data integrity for modeling.

**Chocolate Sales Performance Report (Power BI)** GitHub
- Created an interactive **Power BI dashboard** to visualize regional sales trends and profitability.
- Utilized **DAX measures** and **Power Query** to calculate custom KPIs and growth metrics.

## Education

**BRAC University** Dhaka, Bangladesh
Bachelor's Degree in **Computer Science and Engineering**; CGPA: 3.38 2021 – 2025

**Alamgir Monsur Mintu Memorial College** Mymensingh, Bangladesh
Higher Secondary Certificate (HSC); **GPA: 3.50** 2018 – 2019

**Shahid Zia High School** Mymensingh, Bangladesh
Secondary School Certificate (SSC); **GPA: 4.64** 2017

## Strengths

- **Analytical & Problem-Solving Skills:** Strong ability to break down complex issues.
- **Leadership & Teamwork:** Experienced in managing club finances and event logistics.
- **Adaptability & Continuous Learning:** Quick to learn new technologies and adapt to environments.

## Skills

**Programming Languages:** Python, SQL, Assembly, Verilog/VHDL, HTML, CSS, C, Solidity
**Frameworks & Libraries:** Python frameworks, OpenGL, JavaScript
**Hardware & Tools:** VLSI Design, Arduino, STM32, emu8086, Quartus, Raspberry Pi
**Design & Portfolio:** Figma (Basics of UI/UX prototyping), AI-powered portfolio creation
**Currently Learning:** Microsoft Excel and Power BI for professional development

## Languages

English (Native), Bangla (Advanced), Chinese (Beginner)
